

LECHUZA *Winery*

OUR WINE IS THE OFF SPRING OF A PHILOSOPHY...

Lechuza's dream took root in 2001, inspired by the land and native owls. Founded on family passion, our vineyards were nurtured by knowledge from UC Davis, blossoming since 2005. Kristin, influenced by her parents and life mentors, joined the legacy in 2013 to raise the art of winemaking.

Rooted in sustainability and communal enterprise, mirrored in our integrity and everyday dedication. We champion the unity of the community and the concept of a wine that unites, beckoning both enthusiasts and novices to join us in a reflective interlude within the world of wine.
